Professor W. H. Wood, Ph.D.,

445 Park Avenue,

Wesleyville, Pa.

Dear Dr. Wood:

I should have answered your letter some time ago, but as I have nothing that I can offer you in the way of a nomination for a position in the University the delay in answering your letter will I suppose not be of great consequence. We are not at all likely to fill Professor Benzinger's position in the meantime, and the kind of work that you are doing at Alleghany College is undertaken for us by Professor Taylor, who was appointed last summer to the chair in University College. Any position that we would have for next year would be merely an instructorship, and I am not sure about that.

With kind regards, I am,

Yours sincerely,

President.
